PHOENIX RISING EXOTIC AMMUNITION™

Welcome Dealers to the New Phoenix Rising Exotic Ammunition Wholesale Program.

We are introducing a totally new wholesale program that has the most requested changes from our customers. These changes are designed to simplify placing orders, give dealers a better pricing structure to be able to offer a broader range of products and greatly increase the speed of processing and delivery. I hope you will find these new improvements to be a great help in increasing your sales and your bottom line.

The quantity required to purchase wholesale has been changed to eliminate minimum quantity requirements. Dealers may now purchase exactly what they need to offer the best selection to their retail customers.

The packing has been changed to 3 Round packs for 12 Ga. rounds and 5 round packs for .410 Ga. This is more appealing to retail buyers because they spend less per pack and can buy a wider selection for their purchase.

The labels for the ammunition are now front and back printed with additional information and product warnings as well as barcodes. The labels have also been enhanced to be more colorful, detailed and easier to read to attract the buyer.

Dealers can now purchase any round in any quantity of packs no matter how large or small. This allows the dealer to spend less money and at the same time increase their offering to their retail base. Your account will not be charged until the order ships.

Shipping times have also been greatly reduced by increased shipping and processing personnel.

Phoenix Rising still maintains the highest quality products in the industry and the largest selection of exotic ammunition.

Phoenix Rising Exotic Ammunition is professionally loaded in fully licensed facilities and all rounds are tested with the most advanced systems during development as well as production. We do not offer rounds that do not meet our quality and safety standards which are the highest in the industry.

Phoenix Rising Exotic Ammunition is the most recognized brand in the industry. We have a large presence on the Internet and this is a great benefit for the wholesale supplier to attract customers.

Thank you for your interest in our products. We look forward to hearing from you.
